

## **Brentwood Acquires Reynolds Medical Packaging**

We are pleased to announce the acquisition of the production assets of Reynolds Medical Thermoformed Packaging Operation, located in Downingtown, PA.

This acquisition was completed at the start of business on December 8, 2008 and supports Brentwood's strategic effort in expanding its medical packaging division. To that end, Brentwood is also purchasing new state-of-the-art thermoforming equipment, expanding its clean room, and increasing sales and engineering personnel.

We look forward to supporting the needs and satisfying the expectations of our newly-acquired customers. As a progressive supplier of innovative packaging solutions, Brentwood Industries is committed to the standard of excellence in designs, products, services, and performance that have been built over 40+ years of designing, engineering, and manufacturing of the highest-quality thermoformed plastic products.

For more information on our acquisition of Reynolds Medical Thermoformed Packaging Operation, please contact Rich Partlow, General Manager SPG.
