Quick Zip™ Pouch Innovation from Ampac Provides Convenient Self-Gripping Fastener System

Cincinnati, OH (September 9, 2011)—Ampac, a global leader in the retail, food, pet food, and medical packaging markets, introduces the Quick Zip™ pouch innovation with a self-gripping fastener system.

The innovative Quick Zip pouch utilizes an easy-open, resealable zipper closure method that encompasses self-mating hooks and/or loops. Available in any style pouch where press-to-close standard zippers are currently used, the Quick Zip pouch provides the ultimate in convenience with its ease of closure due to minimal requirements for zipper alignment.

Quick Zip pouches are contaminant resistant and readily seal through powders and fine particles. With a sturdy and robust structure, the Quick Zip pouch allows for numerous openings and closings without damage to the pouch. The opportunity to differentiate from other pouches creates a unique and fun innovation in pouch capabilities from Ampac.

Suggested applications for the Quick Zip pouch innovation include dry food products such as nuts, trail mix and dried fruit, pet foods such as dog, cat and bird food and treats, frozen vegetables, dairy products such as shredded cheese, fine particle foods including sugar and sugar substitutes and protein powders, as well as lawn and garden applications for seed and fertilizers.

“The Quick Zip pouch innovation opens up a wide variety of uses for frozen and dry food products, pet food, and other powder and seed-type applications. It’s convenience offers improvements that will benefit all consumers.” said Dave Bartish Ampac’s Marketing Director, New Business Development.

Ampac is a leader in the retail, food, pet food, security and medical packaging markets, whose mission is to design and deliver packaging products and services that build business for the customer. It is a diversified global packaging company with 14 manufacturing centers in North America, Europe and Asia employing approximately 1,300 people. Products offered by Ampac include innovative flexible packaging, domestic and overseas retail specialty shopping bags, and security bag solutions.
