Harper Corporation's Juan Bermudez to Speak at Andina-Pack 2011

Charlotte, North Carolina, October 26, 2011— Global anilox roll supplier Harper Corporation is proud to announce that Juan Bermudez, the Sales and Service Manager for Latin America, will be giving a presentation at Andina-Pack 2011, an international packaging exhibition. Bermudez will also represent Harper Corporation at a tabletop at the event, which takes place in Bogota, Colombia, November 8-11.

Andina-Pack 2011 is known as one of the most prestigious events in the flexographic industry. The upcoming exhibition will allow industry professionals to discuss and discover integrated solutions for product management that are both competitive and sustainable.

This, the eleventh Andina-Pack event, will host over 700 exhibitors and 20,000 participants. Bermudez will be addressing participants concerning the anilox selection for high definition plate technologies, a topic that will prove both relevant and interesting to many of the event's guests.

In addition to having its own presence in the form of a stand and Bermudez's speech, Harper will be represented by its exclusive Colombian distributor, Chemisolutions. With representatives onsite at the Harper Corporation tabletop, Chemisolutions will be able to answer any questions that the event's attendees may have.
