**Harper Corporation of America to Exhibit at the 2012 PLGA Conference**

*Charlotte, North Carolina, January 17, 2012*—Global anilox roll supplier Harper Corporation will exhibit at the 2012 PLGA Conference. Harper will be represented by Tony Donato and Alex James, who will exhibit Harper Corporation's XDI™ - Ceramic Gravure Cylinders, product information, and HarperScientific's Gravure Phantom QD™ Ink Proofer. Donato will act as a co-chair of the fourth session, "The Packaging Printing Process - Then, Now, and the Future." The session covers the history of offset, flexo, and gravure technology over the last 20 years. James will be a presenter in the session discussing "Offset and Flexographic Pre-press."

The theme is "The Keys to Gravure's Success" and the Operational Conference topics cover: Facing Today's and Tomorrow's Workforce Issues on the Factory Floor, Emerging Technologies, Implementing Process Improvement in Your Operations, The Package Printing Process – Then, Now, and the Future, and Print quality awards.

The 2012 PLGA Conference will take place at the Miami Marriot Biscayne Bay in Miami, Florida. To register, please contact PLGA or visit their website at [www.plga.com](http://www.plga.com).

For more information, please contact Jazmin Kluttz at 704-588-3371, ext. 4292, or [jkcluttz@harperimage.com](mailto:jkcluttz@harperimage.com).
