- ***Sustainable Building Offerings Showcased at Ecobuild in U.K.***- DuPont Building Innovations recently participated in [Ecobuild](#) -- the world's largest event dedicated to sustainable design, construction and the built environment -- in London, England. More than 24,000 people attended the event, where DuPont exhibited its sustainable building offerings.
http://www2.dupont.com/Media_Center/en_US/daily_news/july/article20080707.html
- ***DuPont Energy Projects Receive Awards*** - In recognition of DuPont's longstanding commitment to reduce greenhouse gas emissions and conserve energy, the company has received five awards from the American Chemistry Council (ACC), all focused on U.S. site energy conservation efforts.
http://www2.dupont.com/Media_Center/en_US/daily_news/july/article20080707.html
- ***DuPont Expands Production of Solamet® for Solar Energy*** - To meet the needs of the fast-growing photovoltaic (PV) solar energy market, DuPont will expand production of DuPont™ Solamet® thick film metallization pastes at its Electronic Materials DuPont Dongguan Ltd. (EMDD) facility in Dongguan, China.
http://www2.dupont.com/Media_Center/en_US/daily_news/june/article20080610.html

- ***New Renewable Offering Enters Packaging Market*** - DuPont expanded its renewably sourced portfolio of offerings for the packaging market with the launch of new DuPont™ Biomax® TPS thermoplastic starch and DuPont™ Biomax® PTT (polytrimethylterephthalate) injection moldable resin. The launch took place at the global Interpack packaging trade fair in Dusseldorf, Germany.
http://www2.dupont.com/Media_Center/en_US/daily_news/april/article20080425.html
- ***DuPont Launches HMT for Global Industrial Filters*** - DuPont Hybrid Membrane Technology (HMT) fiber in air filtration bag applications now is globally available for industrial and commercial manufacturing. The product rollout has begun in the United States and Europe with availability through DuPont's laminator network.
http://www2.dupont.com/Media_Center/en_US/daily_news/april/article20080418a.html
- ***Nomex®, Voltatex® Extend Wind Power Equipment*** - Wind provided more electricity than several other alternative energy sources in 2007 - approximately 1 percent of the global supply. By 2020, experts predict that wind will generate about 12 percent of world electricity needs, but the reliability of generating equipment is essential to the success of the rapidly growing wind power industry.
http://www2.dupont.com/Media_Center/en_US/daily_news/april/article20080416.html
- ***Zodiaq® Terra Collection Enhances Sustainable Offerings*** - DuPont has announced its newest collection of surfaces – the DuPont™ Zodiaq® Terra Collection – with four new colors that contain at least 50 percent pre-consumer recycled glass. The collection will be available through DuPont distributors in the United States in July.
http://www2.dupont.com/Media_Center/en_US/daily_news/april/article20080414.html
- ***DuPont Clean Technologies Help Oil Refineries*** - As part of its new [Clean Technologies](#) solutions, DuPont Chemical Solutions Enterprise (DCSE) has started up a plant in El Paso, Texas, and is in the process of starting up a facility in Linden, N.J., that will help refineries reduce their environmental footprints with on-site spent sulfuric acid regeneration and sulfur gas recovery services with significant reductions in sulfur dioxide emissions.
http://www2.dupont.com/Media_Center/en_US/daily_news/march/article20080314.html
- ***Biofuels Partnership Targets Multiple Butanol Molecules*** - DuPont and BP have announced that their partnership to develop and commercialize [biobutanol](#) is targeting advanced metabolic pathways for 1-butanol as well as other higher octane biobutanol isomers. The companies also announced that testing of these advanced biofuels demonstrates that the use of biobutanol can increase the blending of biofuels in gasoline beyond the current 10 percent limit for ethanol without compromising performance.
