

For Immediate Release
September 5, 2018

PAMARCO AND TRELLEBORG

September 5, 2018- - Pamarco has executed an agency agreement with Trelleborg for distribution of their flexographic product line in the United States and Canada. Pamarco and Trelleborg will be working together to promote their plate mounting sleeves and bridges / adapters for all flexographic press applications. Pamarco and Trelleborg are at your service to evaluate your current needs and discuss how this unique technology can enhance productivity and press performance.

Trelleborg's Damien Letterier stated, "The fit between Trelleborg, Pamarco and Bingham Flexo Services (BFS) is really perfect : Trelleborg is a pioneer in the field of flexo plate mounting sleeves, while Pamarco and BFS are experts in anilox technologies. Our application expertise and product synergies form a new solution provider for Flexo printers in the North American market. The three companies have complementary products and strengths, and this arrangement creates exciting opportunities for us and the North American flexo industry as a whole."

Manufactured with a unique technology, Trelleborg sleeves offer better functions to flexo printers, in particular when it comes to printing speeds and tolling life span. Combined with dedicated service such as Fast Track, this combination will provide North American Flexo printers improvement in their performance and accelerated time to market.

About Pamarco: Committed to the market since 1946, our business culture and value for relationships have been the drivers and differentiating factors behind our position as the world's most successful print roll supplier to date. From offering the most extensive portfolio of products on the market, to offering the best consultative advice, to delivering overall superior customer service; all underpinned by our passionate corporate culture, Pamarco has been able to build enduring and meaningful relationships with printers and OEM suppliers all around the world.
