

**THE ECONOMICS OF COLLECTING AND PROCESSING
FLEXIBLE PACKAGING WASTE (FPW)
TO A FEEDSTOCK FOR PYROLYSIS PLANTS**

Ljupka Arsova and Nickolas J. Themelis PhD

Report to Flexible Packaging Association

May 2013

Preliminary findings of this Report were presented at the FPA 2012 Fall Executive Conference on October 11, 2012 at the Hotel InterContinental, Chicago, Illinois. The final report was completed May 2013.

Table of Contents

	Page
1 Introduction and background.....	8
2 Scope and objectives.....	8
3 Amount of FPW in U.S. MSW	9
4 Where is the FPW going today	9
5 Flexible Packaging Waste inclusive recycling system	10
5.1 Flexible Packaging Waste Supply Chain	10
5.2 Collection and transportation of flexible packaging waste	12
5.3 Separation of the Flexible Packaging Waste (FPW) at the Material Recovery Facilities (MRF).....	12
5.4 Processing of the flexible packaging waste at pyrolysis plants	13
6 Financial analysis of the inclusive system for collection and processing of Flexible Packaging Waste	14
6.1 Methodology and assumptions	14
6.2 Analysis of costs and benefits of the inclusive FPW system in the model communities.....	15
6.2.1 COMMUNITY A.....	16
6.2.2 COMMUNITY B.....	19
6.2.3 COMMUNITY C.....	24
6.3 Summary:.....	28
7 Implementation of the collection system for Flexible Packaging waste	29
7.1 Companies identified as potential partners in the collection of the Flexible Packaging Waste	29
7.1.1 RecycleBank	30
7.1.2 Global Green- Coalition for Resource Recovery- CoRR.....	30
7.1.3 Recycle America Division, Waste Management Inc.....	30
7.1.4 ReCommunity Recycling.....	30
7.1.5 SIMS Recycling Solutions.....	31
8 Discussion	32
8.1 Collection model	32
8.2 Economics associated with the developing recycling system inclusive for the FPW stream	32
8.3 National and international markets for the FPW stream of MRFs	33
8.4 Identified partners and existing relationships among them.....	33
9 Conclusions.....	34
10 References.....	35
11 Appendices	36

List of tables:

Table 1 Estimated amount of FPW according to Flexible Packaging Association..... 9

Table 2 Disposition of U.S. Flexible Packaging Waste 9

Table 3 Relevant market prices for economic model of inclusive FPW recycling system 15

Table 4 Relevant parameters for the economic models..... 15

Table 5 Amount of FPW recovered in Community A and its effect on the overall recycling rate of community 16

Table 6 Effects of the inclusive recycling system on the gate fee costs of the collectors in the community A..... 17

Table 7 Economics at the Material Recovery Facility of Community A 18

Table 8 Projected increase of the MRF gate fee in the Community A 19

Table 9 Projected increase of the market price of the FPW in Community A 19

Table 10 Characteristics of Community B, at 18% of FPW recovery rate 20

Table 11 Current costs and projected savings for the collection services providers at 18% FPW recovery rate in Community B 20

Table 12 Current situation and projected changes at the MRF(s)- Community B at 18% recovery rate..... 21

Table 13 Possibilities to cover the FPW sorting costs at the MRFs..... 21

Table 14 Characteristics of the Community B at 34% FPW recovery rate 22

Table 15 Current costs and projected savings for the waste collection services providers at 34% recovery rate in Community B 22

Table 16 Current situation and projected changes at the MRF(s) in the Community B at 34 % FPW recovery rate..... 23

Table 17 Possibilities for covering the MRF costs of sorting out FPW, for Community B, model 2 .. 23

Table 18 Characteristics of the Community C at FPW recovery rate of 18% 24

Table 19 Current collection system and associated changes for waste collection companies related to inclusive FPW system in community C at FPW recovery rate of 18%..... 24

Table 20 Current expenses at the MRF and associated changes in the inclusive FPW system in Community C at FPW recovery rate of 18%..... 25

Table 21 Possibilities to recover costs at the MRF(s) in Community C at FPW recovery rate of 18% 25

Table 22 Characteristics of the community C at 34% FPW recovery rate..... 26

Table 23 Current collection system and associated changes related to inclusive FPW system in community C at FPW recovery rate of 34% 26

Table 24 Current expenses at the MRF and associated changes with the inclusive FPW system in Community C at FPW recovery rate of 34%..... 27

Table 25 Possibilities to recover costs at the MRF(s) in Community C at 34% FPW recovery rate... 27

Table 26 Allocation of the costs and revenues associated with different services of collection and processing of the FPW..... 29

List of Figures:

Figure 1 Current situation and suggested inclusive recycling system for flexible packaging waste.. 11

List of Appendices:

Appendix 1: RecycleBank Company profile..... 36

Appendix 2: Global Green- Coalition for Resource Recovery..... 36

Appendix 3: Waste Management Inc- Recycle America 37

Appendix 4: Re- Community Recycling 38

Appendix 5: SIMS Recycling Solutions..... 39

Appendix 6: Report from the visit of the SIMS Recycling Facility, Jersey City, NJ 40

Appendix 7: Report from the visit of the Climax Global Energy pyrolysis pilot plant 51

Appendix 8: Report from the visit of the Agilyx pilot plant 55
