FOR IMMEDIATE RELEASE

Advanced Recycling Summit to Bring 100+ Industry Professionals to Cleveland

(Cleveland, OH)– After the success of the 2024 event in Akron, Smithers is excited to bring Advanced Recycling Summit back to Ohio. The 2025 event will take place in Cleveland, OH from August 26 to August 27.

Held at the Westin Cleveland Downtown, the 2025 conference will bring together industry leaders to learn more about how advanced recycling influences the recycling conversation, furthers the circular economy, and enhances sustainability goals.

This year's event will feature speakers from **Waste Management, Legacy Public Policy, Dow, S&P Global, American Chemistry Council, P&G** and more. The 2025 program features over 20 presentations covering key industry concerns such as future market outlook, circularity and climate change, and brand owner recycling goals.

Attendees will also be given the opportunity to tour Waste Management's northeast Ohio facilities. This half day tour allows conference attendees to learn about WM's \$30M investment to help drive circularity in the state of Ohio. For more information, visit the tour page [here](#).
