Press Release

New Montalvo Technical Article - The Importance of Tension Control.

March 1st, 2022, Gorham, ME, USA – Montalvo, an international specialist in Web Tension Control and Web Handling, is proud to publish its latest technical in-depth article about the Importance of Tension Control. In this article, Montalvo covers what Web Tension is, why it is so crucial in the production line, and a how-to on the best ways to maintain, control, and adjust the tension throughout your run. This article offers a thorough and in-depth understanding of the world of Tension Control and answers some of the most common questions manufacturers have asked over the years.

CEO Bryon Williams says “For 75 years we have been providing Tension Control solutions for different manufacturers around the world. As tension control technologies change and the next generation of manufacturers come online it’s vital to understand the role tension control plays in the manufacturing process, the basics, and where. This article provides the foundation of tension control knowledge. We are proud not just to be the world leader in providing Tension Control Solutions, but also to be the world leader in providing technical

support and sharing our knowledge of the industry. We are Web Handling and Tension Control Experts offering Better Support, Better Service, for Better Web Control.”
